Nursing Services Provided:

The main role of every staff nurse and healthcare assistant is to provide twenty-four hour care to all residents. Our aim in our Nursing Homes is to be a centre of excellence for older person care. Our objective is to care for residents utilising evidence-based best practice. In view of this, all nursing and healthcare assistant staff adhere to national and international evidence based policies, procedures and standards when caring for residents in our Nursing Home.

Healthcare assistants support nursing staff by assisting in daily activities including hygiene, mobility, nutrition and social recreation. Riverside Nursing Homes provides all residents with showering facilities and assistance with personal healthcare.

GP Services:

Residents may retain their own GP where possible, or change to a GP recommended by the Nursing Home.

Care Development & Activities:

The Nursing Home takes into account the resident's interests, hobbies, experiences, personality as well as the resident's medical condition. Riverside Nursing Home offers a wide range of activities designed to encourage the resident to keep mobile, and most importantly, take an interest in life.

Within our Nursing home there is a key staff member who has a specific focus of nurturing and supporting Harvey Healthcare's philosophy of a person centered approach to care. This person works closely with our Director of Nursing to support this philosophy through the implementation of purposeful activities, staff training and development as well as providing advisory support for a dementia friendly social environment.

Activities take place on a daily basis and the timetable displayed but there are many 'ad hoc' activities that take place depending on how residents' wishes. Exercise to music, Sonas (stimulation of the senses) program, Bingo, Aromatherapy, Music Sessions, Board Games, Arts and Crafts, Cinema Club, Quiz and Crosswords, Mini Basketball, Board Games, Cards, Peata. We also have discussions of topics of interest and day trips. Aromatherapy and Sonas program are conducted twice monthly and carried out by qualified personnel. There is, of course, a visiting chiropodist and a regular hairdresser. (Some activities are not covered under the Fair Deal contract. There is a weekly charge of €35. Details are set out in the Contracts of Care)

The above is not an exhaustive list and, as part of the residents' social and personal care plan, our staff will get to know the residents interests and tailor activities accordingly. Residents may have an interest in gardening that they would like to continue or painting and arts or simply playing cards, all of which can be accommodated. Family input can be very helpful in this regard.
